

Curtin Mauritius

BACHELOR OF DESIGN

GRAPHIC DESIGN MAJOR WITH DIGITAL DESIGN SPECIALISATION

ABOUT THE DEGREE

Graphic Design Major (B-Design)

Students select their pathway of study in graphic design within the Graphic Design major. This programme provides students with a creatively expansive experience to express their ingenuity, culture, intellectual abilities and skills through creating relevant graphic design solutions. Project based activities develop design processes that embed professional standards with individual thoughts, concepts and ideals. Components of the third year programme are self-directed and lead to a portfolio. This design major is directed toward employment outcomes as a designer

or practitioner in the creative industries sectors. Higher study directions include areas of specialisation in design, research and/or education.

Digital Design Specialisation

Specialisations prepare students to develop broad knowledge about an additional discipline area or same discipline area that complements their study in an award course.

The Digital Design specialisation is ideal for people who are interested in gaining fundamental skills and knowledge in Web and UX Design. This specialisation can boost your employability

by developing your digital design problem solving skills and deepening your understanding of how to create engaging digital experiences

ABOUT CURTIN UNIVERSITY
