BACHELOR OF COMMERCE **BUSINESS LAW** WITH SPECIALISATION IN APPLIED FINANCE

ABOUT THE DEGREE

In today's fast-paced business world, understanding the intersection of law and finance is critical. With our **Business Law with Applied Finance** program, you'll gain the skills to navigate the legal frameworks that shape corporate environments and more specifically the financial sector, where compliance and risk management are paramount. Whether it is drafting contracts, ensuring regulatory compliance, or advising on corporate governance, you'll be prepared to take on pivotal roles in organisations by recognising potential legal risks and managing them proactively.

This dual competence will prepare you for roles in compliance, corporate governance, risk management, and legal consultancy within the financial sector and beyond. This degree prepares you to become a legal expert with financial expertise but is not a professional qualification allowing you to prepare for the Bar examination.

This program covers critical areas like **Contract Law**, **Company Law**, **Employment Law**, and **Competition Legislation**, while the **Applied Finance** specialisation will provide you with a deep

understanding of **financial markets**, **investment analysis**, and **corporate financial management**.
