

Curtin Mauritius

BACHELOR OF SCIENCE PSYCHOLOGICAL SCIENCE

If you are fascinated by how and why people behave and think as they do and would like to develop the skills and knowledge to allow you to have a positive impact on society, then studying psychology is perfect for you.

ABOUT THE DEGREE

Psychology is the study of the mind and human behaviour. Psychology students will learn about human-emotions, thought processes and relationships.

This three-year psychology program lays the foundation of knowledge on various aspects of mental health. It provides an understanding of the theoretical framework within which various approaches and techniques have been developed. Understanding and applying research methodology is an important part of the course. This undergraduate degree provides a strong foundation for more advanced studies either in the fields of Psychology or Business.

Learn about perception, cognition, emotion, personality, behaviour, and interpersonal relationships and how psychologists examine, explain and predict what people do as individuals and in groups.

STUDY AND CAREER PATHWAYS

IN PSYCHOLOGY: Graduates who wish to pursue a career in Psychology will need to study further. In most countries a specialized Master's program and supervised internship in a psychological setting are required to obtain registration and license to practice - refer to Graduate Diploma in Psychological Science and Master in Applied Psychology factsheets.

IN BUSINESS: Graduates who wish to work in Business can undertake further studies in a range of Business fields, including HR, Law and Marketing. At Curtin they can extend their degree to include a fourth year of business specialisation or they can enrol on a Post Graduate Business course
