

Curtin Mauritius

BACHELOR OF SCIENCE

PSYCHOLOGICAL SCIENCE AND HUMAN RESOURCE MANAGEMENT

Use your knowledge of psychology to help resolve issues in the workplace, recruit and engage employees, and improve individual and team performance.

ABOUT THE DEGREE

This degree is designed to provide an appreciation of both the scientific discipline of psychology and of the human resource management profession. This combination provides you with a highly marketable knowledge base which allow you to pursue a successful business careers. As a graduate of this course, you will have the necessary skills to work in human resource management, health and community services, employment and training, welfare agencies, labour market industry and development both in government and private enterprise.

Learn about perception, cognition, emotion, personality, behaviour, and interpersonal relationships and how psychologists examine, explain and predict what people do as individuals and in groups.

In addition, learn Management & HR theories and practices, Organisational Behaviour, Industrial relations, Recruitment & Training, Performance and Conflict Management

STUDY AND CAREER PATHWAYS

IN PSYCHOLOGY: Graduates who wish to pursue a career in Psychology will need to study further. In most countries a specialized Master's program and supervised internship in a psychological setting are required to obtain registration and license to practice - refer to Graduate Diploma in Psychological Science and Master in Applied Psychology factsheets.

IN BUSINESS: Graduates who wish to work in Business can undertake further post-graduate studies in HR, Business Administration or International Business
